

P2D Platform Release Notes Sprint 34

If your PC has not been restarted after the software has been deployed, please ensure you do this or refresh your browser.

The following updates have been included in the upcoming release to the P2D platform:

Addition to Meat EHCs Heat Treatment Dropdown

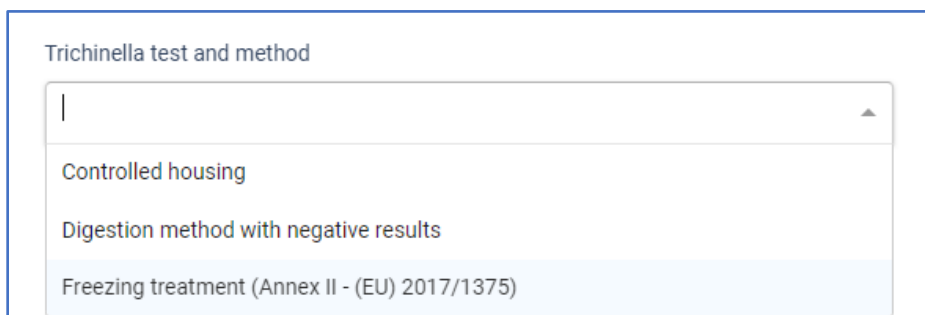

For Meat Products and the Raw Material Equivalents, we have added 'D1' as a Heat Treatment Option. D1 refers to: Thorough cooking of meat, previously deboned and defatted, subjected to heating so that an internal temperature of 70 °C or greater is maintained for a minimum of 30 minutes.

The screenshot shows a dropdown menu titled "Heat Treatment Letter Code". The menu is open, displaying a list of options: A, B, C, D, D1, E, and F. The option "D1" is highlighted in blue, indicating it is the selected or active option.

Trichinella Test Dropdown

To aid data entry, the Trichinella test and method free text field has been replaced with a dropdown field.

The screenshot shows a dropdown menu titled "Trichinella test and method". The menu is open, displaying a list of options: Controlled housing, Digestion method with negative results, and Freezing treatment (Annex II - (EU) 2017/1375). The option "Freezing treatment (Annex II - (EU) 2017/1375)" is highlighted in blue, indicating it is the selected or active option.

Composite Comp & Fish-Crust-HC - Region of Origin Update

The only valid option for Region of Origin for EHCs Composite Comp and Fish Crust HC for finished products is N/A. We have updated the platform so this will now default to N/A.

Region of Origin

N/A

Updated 'Sus Scrofa' to 'Sus Scrofa Domesticus'

The Latin species name for Pork (domestic pig) has been updated from 'Sus Scrofa' to 'Sus Scrofa Domesticus' across the platform.

Pork RM
