

# P2D Platform Release Notes Sprint 35

If your PC has not been restarted after the software has been deployed, please ensure you do this or refresh your browser.

The following updates have been included in the upcoming release to the P2D platform:

## Two New Dairy Products PT Fields

We have added two new fields for Dairy Products PT. They are added as static data within the product set up. These new fields are free text fields rather than a drop-down option.

The old format can be seen in the image below:

The screenshot shows a form titled "Dairy Products PT". It contains two main fields: "Country of Origin \*" and "Latin Species Scientific Name of Animal \*". Both fields are currently empty and have a dropdown arrow on the right. To the right of the second field is a checkbox labeled "Other".

The below image is how the template will look after the release:

The screenshot shows the updated "Dairy Products PT" form. It now includes four fields: "Country of Origin \*" (containing "GB"), "Latin Species Scientific Name of Animal \*" (containing "Bos taurus"), "Country (and Zone if Applicable) of Origin of Finished Product \*" (containing "GB-0"), and "Country (and Zone if Applicable) of Origin of Animal, if Not on Farm for 90 Days \*" (containing "GB-0"). Each field has a clear 'x' button and a dropdown arrow. There are checkboxes for "Other" and "N/A" next to the second and fourth fields respectively.

The Country and Zone field refers to the 2 letter ISO code found in Country of Origin and the single numerical value found in Region of Origin. This should be displayed in the format GB-0 as shown above and can feature more than one value e.g., GB-0, EU or users can tick N/A if the animal was in residence for 90 days.

This is to aid the OV certifying the products to answer 'part II' statements on the EHC.

## Dropdown for Fish Mol Production Area of Harvest updated

To improve existing functionality and to meet with legislative change, we have added a new option to the dropdown list for the Fish-Mol EHC template to include N/A for Scallops outside of classified zones.

Production Area of Harvest

- A
- B
- C
- N/A (Scallops outside of classified zones only)

## Fish-Mol EHC - Region of Origin free text

To improve existing functionality, the Region of Origin field has been made free text. This will not affect any previous traces created.

This change aligns the platform with legislation. Your new Region of Origin should be a classified harvesting area, entered by name and associated approval code.

Below is a URL address to an Excel document that includes a table where you can find this name and code. Please copy and paste the entire address into your browser.

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/966945/Great\\_Britain\\_and\\_Crown\\_Dependencies\\_Production\\_Areas\\_for\\_Live\\_Bivalve\\_Molluscs.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/966945/Great_Britain_and_Crown_Dependencies_Production_Areas_for_Live_Bivalve_Molluscs.pdf)

The code you require can be found in column C of the Excel document and the name can be found in column E. A snapshot of the file can be seen in the image below:

GB and Crown Dependencies Production Areas for Live Bivalve Molluscs (Last updated: 8 April 2022)							
TRACES number: SIN (Scotland/RMP (Eng and Wales)/ Unique Identifier (Crown Dependencies))	Responsible	Name	Classification Zone (Address field on TRACES NT)	City	Postcode	Activities	Remarks
JEYLB001	Jersey, Channel Islands	La Hurel West	La Hurel West	Grouville	JE3	Z	ZB Aq
JEYLB002	Jersey, Channel Islands	La Hurel Main Bed	La Hurel Main Bed South	Grouville	JE3	Z	ZB Aq

## Fields removed from EHCs

We have identified fields across the platform that we no longer need to capture, they will therefore be removed from the platform. A full list of these fields can be found below:

### Poultry

- ◆ Subspecies/ Category
- ◆ Territory of Origin II.2.3
- ◆ Date of Introduction

### Egg Products

- ◆ Subspecies
- ◆ Non-Disease Focused Treatment (other) in Excess of

### Meat Products

- ◆ Treatment Type

### EU to EU Transit

- ◆ Region of Storage

### Meat Preparations

- ◆ Test
- ◆ Date of Freezing

### Fish Crust HC

- ◆ Territory of Origin II.2.1
- ◆ Date of Introduction
- ◆ Packing Date

### Fish Mol HC

- ◆ Territory of Origin II.2.1
- ◆ Date of Introduction
- ◆ Catch Certificate Number
